MULTICAM NOSE MOUNT

GENERAL INFORMATION

The *Multicam* Nose Mount is a helicopter camera mount designed to capture a forward looking "flight of the helicopter" point-of-view in which the horizon rolls as the helicopter banks, providing 200 degrees of tilt movement making it ideal for approach, reveal, chase, vertical scenic aeriels or fast action sequences. *Multicam* Nose Mounts are used by your Operator and AC and utilize your camera(s) and lenses.

OPTIMUM CAMERA TYPES

LARGE FORMAT CAMERAS: IMAX, Iwerks, Panavision, Vistavision, Showscan
MULTIPLE FILM CAMERAS: All formats, including "3D"
VIDEO CAMERAS: All industrial hand-held type, including HDTV

ADDITIONAL FEATURES

- Optional air-to-ground Microwave video transceiver.

Note: Cameras other than *Arriflex* require their own remote control devices (with a 12 ft. cable) to operate On/Off, Speed, Footage, etc.
